

RESOURCE CONNECT ASIA

Asian Webinar – Technology
Friday, 26 September 2025 | 10:00am
(Perth / Manila / Beijing Time)

Resource Connect Asia (RCA) TechKnow Webinar connects companies with investors and partners across Asia.

Join us to explore breakthrough **technologies and biotech** innovations shaping the future of healthcare and investment.

Developing new therapies for cancer and rare diseases, with lead program HMBD-002 targeting the novel immune checkpoint VISTA (Phase II expected 2026).

Advancing next-generation diagnostics and therapeutics to transform cancer care, with exosome isolation products, cancer diagnostics, and preclinical CAR-exosome therapies targeting solid tumours.
